CIRCULAR

Sub: Publishing of Research Article as Open Access (OA) in the Cambridge University Press (CUP) Journals at no cost until 31st December 2025.

It gives me immense pleasure to inform research and academic community of the University of Kashmir that on the request of the Allama Iqbal Library, the Cambridge University Press (CUP) has extended the benefit of a transformative agreement, i.e. publishing of research articles as open access in the CUP journals without paying any Article Processing Charges (APCs) until 31st December 2025.

Full Access to the Cambridge University Press (CUP) E-Journal Collection:

The Allama Iqbal Library has access to over **420 peer-reviewed** academic journals from the Cambridge University Press (CUP) covering diverse subject fields. The link to access CUP is available on Library website and also in KU eLibrary platform.

How to Access CUP Journals:

On-Campus Access: All devices connected to the Kashmir University's network can access CUP eJournal content directly—no individual login is required, as the access is IP-based.

Off-Campus Access (Remote Access): Through the **KU eLibrary Platform** of the Allama Iqbal Library at <https://ku.refread.com>, the users can access CUP eJournals from anywhere, anytime (24x7). The KU eLibrary Android and iOS mobile app can be downloaded at Google Play store and Apple App store respectively

As such, all the research scholars, faculty members and students are requested to take maximum benefit of this opportunity and publish their articles in the Cambridge University Press (CUP) journals as Open Access (OA) without paying any **Article Processing Charges (APCs)** for its wider reach, higher citations, more visibility and more downloads.

For further information and assistance, contact the Allama Iqbal Library or visit the E-Resources Centre of the Library.
